1.2. Document Purpose

The purpose of this document is to provide comprehensive business requirements for Telcos float purchase on channels completely, accurately, and unambiguously. All attempts have been made to ensure that only business terminologies and languages were used while describing the requirements in this document. Very minimal and only commonly understood technical terms are used.

1.3. Intended Audience

The intended audiences for this document include;

• Business Sponsor	• Business Owners
• System Designers & Solution Architects	• Developers
• Project Manager	• Quality Assurance
• Compliance team	• Risk & Fraud team
• InfoSec Team	• Monitoring Team
• IT & Cyber risk	• Test leads

2. PROJECT SUMMARY

2.1. Project Background

Telcos have already set up and operationalize a Trust Accounts with EquityBCDC. The Telco aims to curb float availability constraint that is occasioned by limited geographical coverage of the banks they currently work with in serving their Agents/Partners.

Due to increased demand by the Telcos partners, the bank intends to extend the float purchase further to its mobile channels. This will allow seamless flow of TELCOS float transactions from Agent to TELCOS to Bank and vice versa over a wider geographical coverage, leveraging on EquityBCDC mobile channels, to provide access of better float transactions services to a greater number of Agents/Partners.

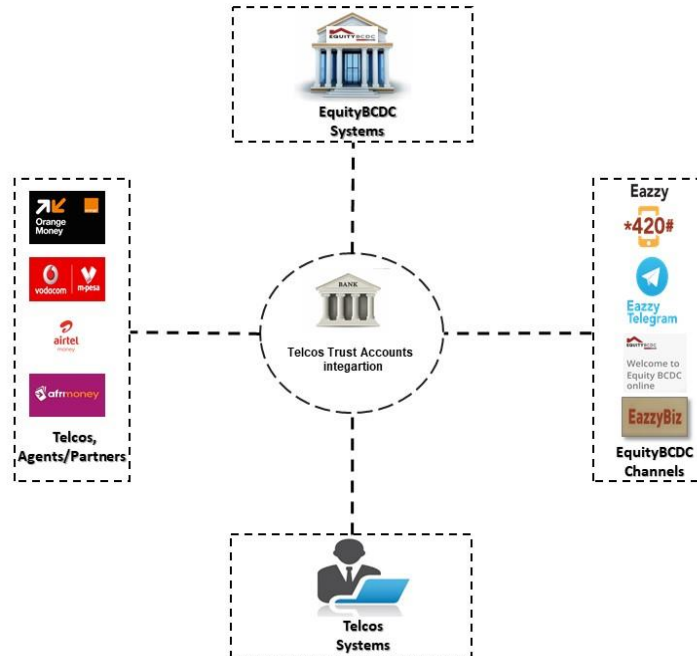

EquityBCDC stands to benefit from deposit mobilization and commissions earned.

2.2. In Scope

1. Float purchase by TELCOS Agent/Partner through

- Mobile Banking; Usd and Telegram
- Internet Banking: EquityBCDC Mobile, Web and Eazzybiz
- Agency Banking; Usd, POS and Portal

2.3. Business Context Diagram

7. Ensure commission must be recovered and accounted for by channel.
e.g., if a transaction is originated from the App let the commission count to mobile app
8. The reports should also have the channel differentiator. APP transactions, USSD transactions, Web transaction, Agency Transactions, Eazzybiz

4. DETAILED FUNCTIONAL REQUIREMENTS

4.1. Detailed Functional Requirements

App & Web

Requirement 01	Float Purchase via EquityBCDC App & Web
Actors	Customer, Equity Systems, Telcos
Requirement Overview	Customer logs into the portal and fills details required in the portal.
Preconditions	1. Equity Banking Systems are functional i.e., EquityBCDC Mobile, Web 2. Customer has an active EquityBCDC Bank account. TELCOs have provided an API for validating Partner/Agent names, Store & agent Numbers
Termination Outcomes	Condition Affecting Termination Outcomes
1. Successful	1. Preconditions are met. 2. Customer specifies valid Agent/Partner number & Store Number (validity determined via API call to TELCOs)

	- Customer number must be linked to the specified store number (one-to-one relationship) - Customer must have access to Mobile and Internet Banking - Customer must have sufficient funds in their account to support the transaction Principal amount + Fees & Taxes
2. Failure	- One or more preconditions not met. - Customer specifies invalid Agent Store Number
Description of Termination outcome #1	Float Purchase through Internet Banking - Customer logs into Internet Banking using Username and password - Access Transaction feature - Select 'Float Purchase' - Selects the account to be debited from a dropdown. - Selects the telco - Select 'Enter Agent Identification Number' - Captures the Agent Number <i>System will validate agent number</i> <i>System will fetch and display the below details to the Agent after validation is done.</i> - Agent Number - Agent Name - Select Float currency - Enter the amount <i>The limits must be displayed so it will be clear to the applicant at the point of capturing the amount</i> - Customer submit transaction - System will validate agent Details <i>If Agent details are wrong then it will be decline & the customer will be advise to re-capture account details to continue.</i> - System display transaction summary - Customer will confirm after seeing the transaction summary - System will generate and send to the customer the OTP - Customer Enter OTP Note : - OTP for the first time only, straight through for subsequent transactions <i>If the OTP is not written correctly, the transaction ended up.</i> - System Process the transaction - System Process the transaction <i>The system will notify customer & Telco Systems</i>

	➤ Notification of successful to Customer Float of <Currency> (Amt) for (Agent name) agent (number .) was successful Ref (No.) on dd/mm/yy at {hh:mm:ss} ➤ Notification of successful Purchase to customer Inapp & SMS ➤ Notification of Successful purchase to Telcos-Integration <u>15.An instant payment notification is sent to Telcos systems to top up Customer Telcos till</u> <u>Float Purchase Transaction and Associated Charges:</u> Whenever a Float Purchase request is raised by a customer, the following transaction and associated charge are raised. <u>Float Purchase transaction type</u> Debit Party; Customer account Credit Party; Equity TELCO Float Account (Trust Account) Amount: Amount of float purchase <u>Associated charges transaction type</u> Debit Party; Customer account Credit Party; Float Commission account Amount: As defined through fee configuration
Favourite	1. Select My Transfer 2. Select Float Purchase 3. Select Manage Favorites - Favorite management ● Add favorite ● Remove favorite ● Edit favorite
Description of Termination outcome #2	In case the Customer submits invalid Agent/Partner Store Number, or the systems have an issue, the system will respond with an appropriate failure response as indicated below; System Failure. <i>Failed. We are experiencing system downtime at the moment. Please try again. Apologies for the inconvenience</i> Agent Number Not Linked to Store Number If the specified agent number is not linked to the specified store

	number, the system will respond with the message: <i>Failed, the Agent Number specified has not been linked to a store number. Please check and try again.</i> Invalid Store Number If validation fails for the store number specified, the system will respond with the message: <i>Failed, the Agent/Partner Store Number specified is invalid. Please check and try again.</i> Blank/Empty Narration <i>Failed, the Agent/Partner Store Number has not been specified. Please try again</i>
Use Case Associations	The association is one to one as an agent/partner can only buy float for one store number at a time.
Business Rules	1. Agent number and Store number must be active. 2. Agent/Partner Store Number must be validated before transaction processing. Validation shall be achieved by use of API provided by TELCOS. 3. Agent/Partner number must be linked to the specified store number. 4. In case of system failures and the float amount has been debited from the customer's account, an auto-reversal should be initiated. 5. The Store Number must be validated against an approved set of allowed store numbers. Validation shall be by API already available from by TELCOS. 6. SMS and E-mail notifications shall be sent to the Customer after transaction is committed.
Inputs Summary	Agent/Partner Number, Transaction PIN/OTP, Amount deposited
Output Summary	Transaction reports, System notifications

Table 5: Float Purchase via EquityBCDC Mobile and Web

Eazzybiz

Requirement 02	Float Purchase via Eazzybiz
Actors	Customer, Equity Systems, Telcos system
Requirement Overview	Customer logs into the portal and fills details required in the portal.
Preconditions	1. Equity Banking Systems are functional i.e., EquityBCDC Eazzybiz 2. Customer has an active EquityBCDC Bank account.

Termination Outcomes	Condition Affecting Termination Outcomes
1. Successful	1. Preconditions are met. 2. Customer specifies valid Agent/Partner number & Store Number (validity determined via API call to Telco) 3. Agent/Partner number must be linked to the specified store number (one-to-one relationship) 4. Customer must have access to Mobile and Internet Banking 5. Customer must have sufficient funds in their account to support the transaction Principal amount + Fees & Taxes
2 Failure	1. One or more preconditions not met. 2. Agent/Partner specifies invalid Agent Store Number
Description of Termination outcome #1	Float Purchase through Eazzybiz 1. Customer logs into eazzybiz using Username and password 2. Agent/Partner select 'Float Purchase' 3. Agent/Partner selects the telco (Vodacom, Airtel...) 4. Agent/Partner Select 'Enter Agent Identification Number' - Captures the Agent Number <i>System will validate agent number</i> <i>System will fetch and display the below details to the Agent after validation is done.</i> • Agent Number • Agent Name 5. TELCOS Agent/Partner selects the account to be debited from a dropdown. 6. TELCO Agent/Partner select Float currency (USD or CDF) <i>'Purpose of float purchase' field shall be pre-populated.</i> 7. TELCO Agent enter the amount <i>The currency selected will be displayed</i> 8. System will display a confirmation pop-up to the TELCO Agent/Partner with the below details. • Debit Account; • Agent Identification Number; • Agent Name; • Float amount purchased; • Charges 9. Customer Check the details and clic on <<Submit>> to push finalize the transaction 10. Enter the RSA token 6 digits and confirm <u>Transaction going in queue for <Checker> process</u>

	Checker processing 1. Checker Select the transaction in the queue 2. The checker review the transaction details 3. Select the <<ready to release>> button 4. Clic on <<release option>> 5. Clic on return - <i>If the details are not correct, checker return it to the maker to amend and re-submit to him.</i> <u>Float Purchase Transaction and Associated Charges:</u> Whenever the customer raises a Float Purchase request, the following transaction and associated charge are raised. <u>Float Purchase transaction type</u> Debit Party; Customer account Credit Party; Equity TELCO Float Account (Trust Account) Amount: Amount of float purchase <u>Associated charges transaction type</u> Debit Party; Customer account Credit Party; Float Commission account Amount: As defined through fee configuration
Description of Termination outcome #2	In case the Customer submits invalid Agent/Partner Store Number, or the systems have an issue, the system will respond with an appropriate failure response as indicated below; System Failure. <i>Failed. We are experiencing system downtime at the moment. Please try again. Apologies for the inconvenience</i> Agent Number Not Linked to Store Number If the specified agent number is not linked to the specified store number, the system will respond with the message: <i>Failed, the Agent Number specified has not been linked to a store number. Please check and try again.</i> Invalid Store Number If validation fails for the store number specified, the system will respond with the message: <i>Failed, the Agent/Partner Store Number specified is invalid. Please check and try again.</i> Blank/Empty Narration <i>Failed, the Agent/Partner Store Number has not been specified. Please try again</i>

Use Case Associations	The association is one to one as an agent/partner can only buy float for one store number at a time.
Business Rules	1. Agent number and Store number must be active. 2. Agent/Partner Store Number must be validated before transaction processing. Validation shall be achieved by use of API provided by TELCOS. 3. Agent/Partner number must be linked to the specified store number. 4. In case of system failures and the float amount has been debited from the customer's account, an auto-reversal should be initiated. 5. The Store Number must be validated against an approved set of allowed store numbers. Validation shall be by API already available from by TELCOS. 6. SMS and E-mail notifications shall be sent to the Customer after transaction is committed.
Inputs Summary	Agent/Partner Number, Transaction PIN/OTP, Amount deposited
Output Summary	Transaction reports, System notifications

Agency Portal

Requirement R3	Float Purchase via EquityBCDC Agency Portal	
Actor(s)	Agent/Partner, Equity Systems (EquityBCDC Agent Network), Telcos systems	
Requirement Overview	Agent/Partner buys float for a customer by making deposits to TELCOS Trust Account through Agency Portal	
Precondition 1	1. EquityBCDC Banking Systems are functional i.e., Agent Network 2. Telcos has provided an API for validating Partner/Agent names, Store & agent Numbers. 3. TELCOS Agent must have an Equity Account (Not Compulsory)	
Termination Outcomes		Condition Affecting Termination Outcomes
Request is successful.		1. Preconditions are met. 2. TELCOS Agent/Partner specifies valid Agent/Partner number & Store Number (validity determined via API call to TELCOS)

		3. Agent/Partner number must be linked to the specified store number
Request not successful		1. One or more preconditions not met. 2. TELCOS Agent/Partner specifies invalid Agent Store Number
Descripti on of Terminati on outcome #1	Float Purchase by Depositing to TELCOS Trust Account through Agency Banking 1. Agent receive cash from the customer then access to ‘Agent USSD’ 2. Agent go to ‘Agency Banking’ menu 3. Agent select ‘Float Purchase’ 4. Select the Telco 5. Enter Agent Identification 6. Check Telco-Agent Details <i>The system will advise the customer to re-capture the Agent Number if decline.</i> 7. Select Debit Account 8. Select the float currency (USD or CDF) 9. Enter the amount <i>Display the limit so it's very clear to the applicant at the point of capturing the amount</i> • Min – USD or CDF xxx • Max – USD or CDF xxx 10. Agent Enter the Notification Phone number <i>Submit the transaction</i> 11. The system will validate the transaction if : • The Agent has sufficient funds in the Debit account • The phone number is correct - <i>If above conditions are not met, the transaction will be decline and end.</i> 12. The system Summary screen is displayed with. a. Debit Account; b. Agent Identification number; c. Agent Name; d. Float amount purchased;	

	e. Charges (commission and Taxes) <i>System will validate agent number</i> <i>System will fetch and display the below details to the Agent after validation is done.</i> <i>If above conditions are not met, the transaction will be decline and end</i> 13. System process Transaction 14. System Notify Agent & Telco Systems • Notification of Successful Purchase to Agent Inapp & SMS • Notification of Successful Purchase to Customer SMS • Notification of Successful Purchase to Telco Integration 15. Agent receive the confirmation of Payment - Agent can print receipt - Float is purchased <u>Float Purchase Transaction and Associated Charges:</u> Whenever a Float Purchase request is raised by an Agent the following transaction and associated charge are raised. <u>Float Purchase transaction type</u> Debit Party; Customer account Credit Party; Equity TELCO Float Account (Trust Account) Amount: Amount of float purchase
