- Post Implementation Reviews

Current Situation/Problem statement

Currently some Telcos users in DRC can send Money to their EquityBCDC accounts while some are not able to. Eg. Airtel and Vodacash Telco users can send money to their specific EquityBCDC accounts attached to their phone Numbers, they cannot send Money from their Mobile wallets to other Accounts within EquityBCDC. Telcos dealers (Agents) are Users are not also able to Credit their EquityBCDC Accounts to purchase E-Money directly from their EquityBCDC Bank Accounts.

Telco users who are also EquityBCDC customers are not able to pay their loans Directly from their Telco Mobile wallets.

Telco Users who are also EquityBCDC customers are not able to Top Up their prepaid Cards Directly from their telco Mobile Wallets.

Solution

1. An integration to be done using a standard API between the telcos and the Bank i.e. Vodacom, Airtel Money, Orange and Africell to allow Telco Mobile Wallets users to be able to send money from their Mobile wallet to their and other EquityBCDC Bank Accounts. Same integration to be Done on Bank to wallet to Allow EquityBCDC customers to be able to send money from the Bank to Different Mobile Wallets and Multiple users Via Ussd, Chatbot, App and web and ATMs.
2. An integration to be done Using a standard API between the Telcos and the Bank i.e. Vodacom, Airtel money DRC, Orange and Africell to Allow Telco Mobile users to be able to credit their and other Loan Accounts Directly from their Mobile Wallets.
3. An integration to be done Using a standard API between the Telcos and the Bank i.e. Vodacom, Airtel money DRC, Orange and Africell to Allow Telco Mobile dealers (Agents to Directly credit their and other Dealers Bank Accounts from their Mobile Wallets.
4. An integration to be done Using a standard API between the Telcos and the Bank i.e. Vodacom, Airtel money DRC, Orange and Africell to Allow Telco Mobile users to be able to be able to Top Up their and other EquityBCDC issued Prepaid Cards Directly from their Mobile wallets.

5. An integration to be done Using a standard API between the Telcos and the Bank i.e. Vodacom, Airtel money DRC, Orange and Africell to Allow Telco Mobile users to be able to pay to EquityBCDC bank Tills and Paybills.
