

Pesalink Testing Steps:

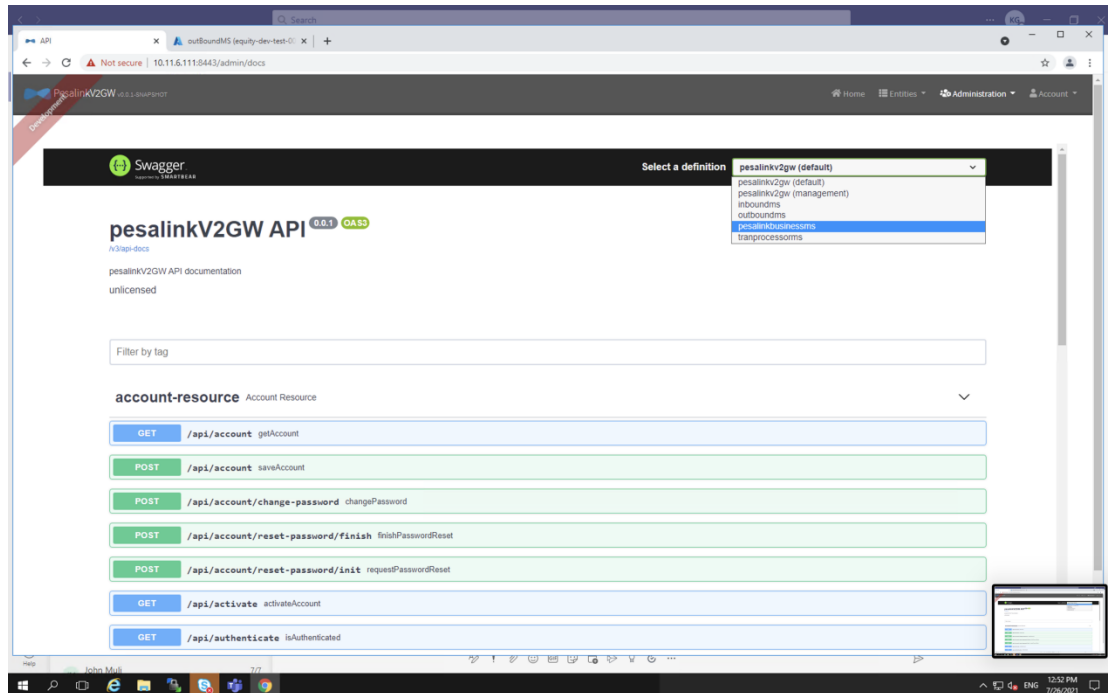

1. Go to the gateway: <https://10.11.6.111:8443/admin/docs>
2. Enter valid Credential:

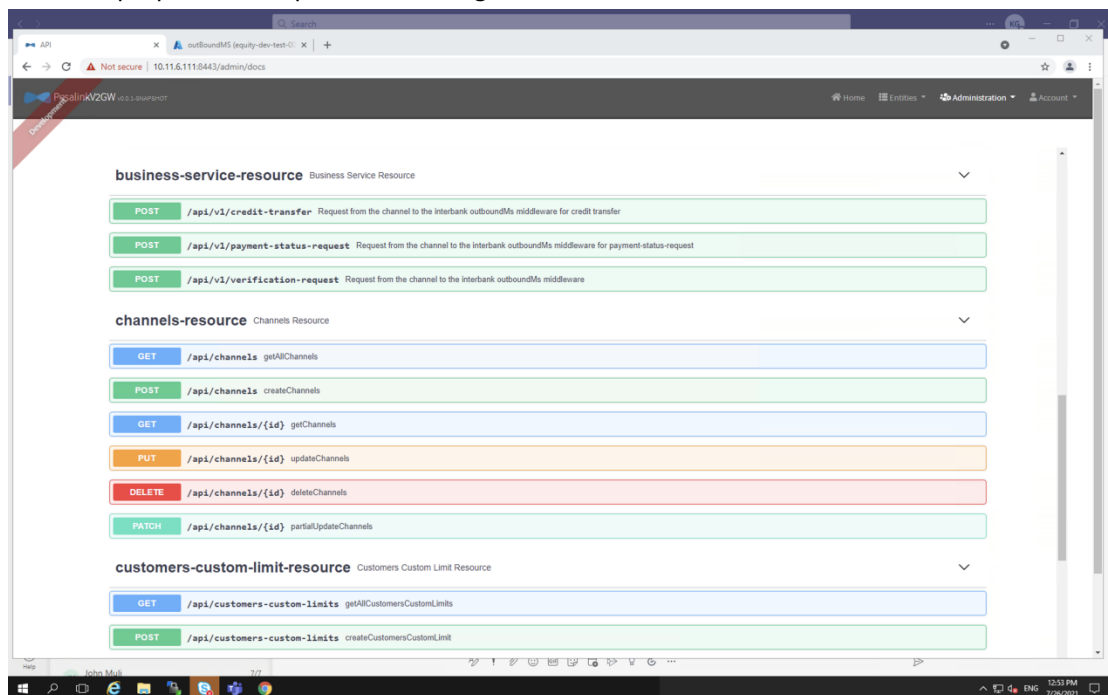

3. On Administration tab, select API

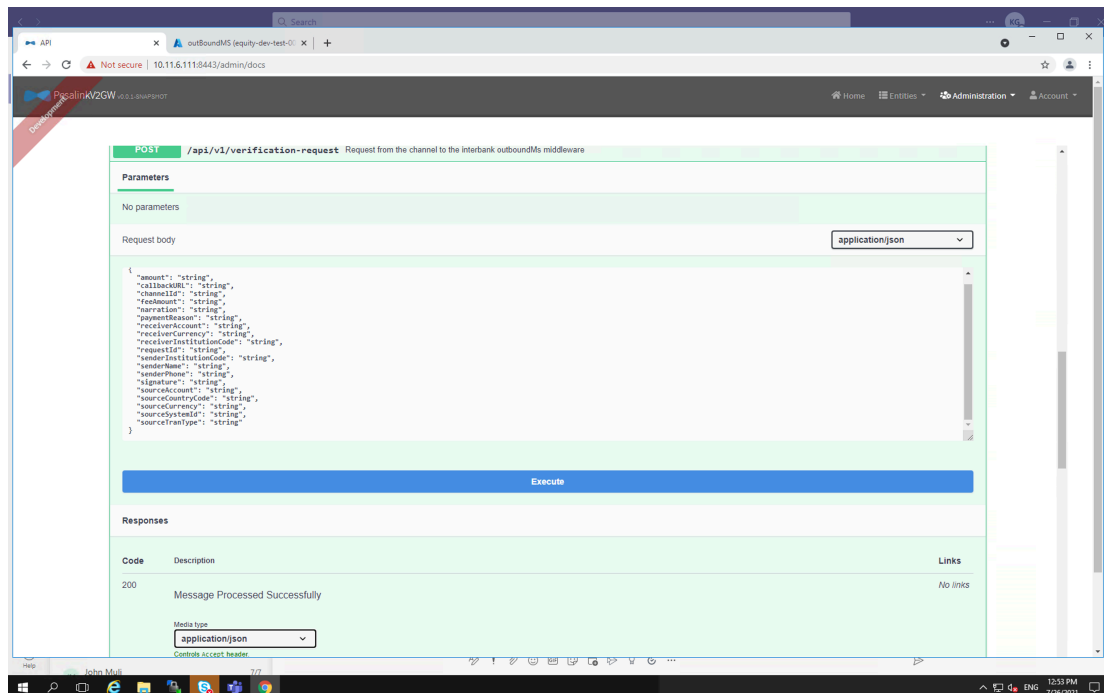

4.select pesalinkbusinesssms

5.For the purpose of this particular testing, work with business-service-resource

6. Make sure you select application/json for both request body and response media type

7. Use below Payloads:

A. Business Service Resource

1. Account Verification

a. General Request - namecheck and account verification

Request

```
{
  "requestId": "EQUITY000000000105",
  "channelId": "STK",
  "sourceSystemId": "APP",
  "callbackURL": "http://localhost:8085/v1/callback/channel",
  "sourceTranType": "1",
  "sourceAccount": "1001008010940",
  "sourceCountryCode": "54",
  "sourceCurrency": "KES",
  "senderName": "KATEI OLE NASHUU",
  "senderInstitutionCode": "0068",
  "senderPhone": "+254-720000000",
  "receiverAccount": "0170197176640",
  "receiverInstitutionCode": "0012",
  "receiverCurrency": "KES",
  "amount": "500",
  "feeAmount": "0",
  "paymentReason": "Payments",
  "narration": "Pesalink Transfer",
  "signature": "YIUWE892UUIWEIOWIEW="
}
```

Where

sourceTranType Values:

- 1 = sendToAccount
- 2 = sendToPhone
- 3 = sendToWallet

NOTE: If sendToPhone or sendToWallet, supply receiverAccount field with the mobile number

Response Success

```
{
  "requestId":"EQUITY000000000105",
  "endToEndId":"123456789",
  "channelId":"STK",
  "sourceSystemId":"APP",
  "receiverAccount":"0170197176640",
  "receiverInstitutionCode":"0012",
  "receiverName":"name",
  "status":"success",
  "statusCode":"00",
  "statusDesc":"Request Processed Successfully"
}
```

Response Failure

```
{
  "requestId": "EQUITY000000000105",
  "channelId": "STK",
  "sourceSystemId": "APP",
  "receiverAccount": "1145756190",
  "receiverInstitutionCode": "0001",
  "status": "Failed",
  "statusCode": "01",
  "statusDesc": "Request Failed. Internal Exception Occurred: Unexpected EOF in prolog\n at
    [row,col {unknown-source}]: [1,0]"
}
```

2. Credit transfer

Request

```
{
  "requestId":"EQUITY000000000105",
}
```

where

requestId = account verification requestId

Response Success

```
{
  "requestId": "EQUITY000000000105",
  "status": "Success",
  "statusCode": "00",
  "statusDesc": "Request accepted successfully"
}
```

Response Failure

```
{
  "requestId": "EQUITY000000000105",
  "status": "Success",
  "statusCode": "01",
  "statusDesc": "Request Failed"
}
```

3. Transaction status - payment status request

Request

```
{
  "requestId": "EQUITY000000000105",
}
```

where

requestId = account verification requestId

Response Success

```
{
  "requestId": "EQUITY000000000105",
  "endToEndId": "0068000120210726113234bac05177",
  "channelId": "STK",
